

## **PROJECT ENGINEER, Hoss & Brown Engineers, Inc.**

### **Job description**

Our Lawrence, KS office has an exciting career opportunity for an Engineer with experience designing mechanical and electrical systems for buildings and interest or experience in project management. The applicant will lead design and manage a wide range of project types including: office buildings, retail, multifamily residential, federal/military, education and civic projects. The applicant will be the main point of contact with clients, staff and other project stakeholders to coordinate work, meet deadlines, give status updates, and ensure all project related inquiries are met.

We are looking for driven professionals who enjoy their work, manage time efficiently, foster collaboration, build professional relationships and demonstrate integrity.

### **Desired Skills & Experience**

- A Bachelor of Science degree in Architectural Engineering is preferred, but a related Engineering degree and combination of training and experience will be considered
- 3+ years of relevant MEP design experience is mandatory
- A PE Registration is preferred
- Proficiency in AutoCAD, HVAC Load Calculation, Energy Modeling, Lighting Calculation, and Microsoft Office is required. Proficiency in Revit is preferred.
- Strong analytical and problem solving skills
- Excellent written & verbal communication skills

### **Benefits**

We offer our employees a relaxed work environment, competitive salary and an excellent benefits package. Our benefits include medical and dental coverage, short and long-term disability insurance, life insurance, 401K with company match, and generous vacation, holiday and sick time policies.

### **About Hoss & Brown**

We are GROWING, and we are looking for professionals who are ready to grow with us! Hoss & Brown is a well-established design firm that provides mechanical and electrical engineering for the building construction industry in the Midwest and across the United States.

### **Apply**
